Reviewer’s report

Title: Facial soft tissue changes after nonsurgical rapid maxillary expansion: a systematic review and meta-analysis

Version: 0 Date: 13 Dec 2017

Reviewer: Leonardo Faverani

Reviewer’s report:

Dear authors, this is an interesting manuscript and important to the area's professional. However several points need to be revised. In the beginning, according to the Cochrane collaboration guidelines, a meta-analysis is a adjunct of a systematic review. So, we should considerate your work like a systematic review and meta-analysis, since title, abstract and methodology. I also think that your word should follow PRISMA checklist (Moher D, Liberati A, Tetzlaff J, Altman DG. Preferred reporting items for systematic reviews and meta-analyses: the PRISMA statement. Int J Surg. 2010;8(5):336-341.). Your manuscript already showed some criteria similarly to PRISMA, but it still lack several points to be revised. Follow the checklist from PRISMA and then, the manuscript can be analyzed.
