Reviewer’s report

Title: Effect of mandibular position achieved using an oral appliance on genioglossus activity in healthy adults during sleep

Version: 1 Date: 16 Oct 2019

Reviewer: Thomas Stamm

Reviewer's report:

I re-reviewed the resubmission of Ogawa et al. on behalf of reviewer Gibson, who declined to re-review. The reviewer originally recommended minor revision with some comments on unhealthy persons, muscle side dominance, bite opening and a correction of grammar. With their reply, the authors have taken due account of the comments of the reviewer. Spelling and grammar were evaluated by the language editor, who recommended acceptance in its current form. In view of this, I recommend that you accept the paper.
