Reviewer’s report

Title: Development, Validation and Application of a 3D printed model depicting Adenoid Hypertrophy in comparison to a Nasoendoscopy

Version: 0 Date: 13 Aug 2019

Reviewer: Hilal ALAN

Reviewer's report:

The authors conducted an experimental study to investigate possible effectiveness 3D printed model depicting adenoid hypertrophy. The manuscript was well written. Comments:

1. Punctuation should be corrected.
2. Abbreviations should be enclosed in parentheses for the first time.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
