Dear BMC Editors:

Thank you very much for the detailed and comments.

Now I would like to submit the revised version of the paper entitled “The Application of Unsupervised Deep Learning in Predictive Models Using Electronic Health Records” by Lei Wang, Liping Tong, Darcy Davis, Tim Arnold, and Tina Esposito for consideration of publication in the journal of BMC Medical Research Methodology. The manuscript id is: BMRM-D-18-00621R3.

We have modified paper according to editor’s comments 1-7. The final clean version of the paper draft has been uploaded.
Thanks a lot for your time and consideration!

With best regards,

Sincerely,

Liping Tong
