Reviewer’s report

Title: Colorimetric and spectrophotometric measurements of orthodontic thermoplastic aligners exposed to various staining sources and cleaning methods.

Version: 1 Date: 21 Jan 2020

Reviewer: Graciela J. Barreda

Reviewer's report:

I have reviewed the research again and I find that is now clearer. Considering that is an in vitro study I understand that from here new studies can be done. I understand that from here new studies can be done. No doubt the aligners require both mechanical and aesthetic properties, and there is still much to do in this regard. The changes introduced are correct.

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have not competing interest bellow.
