Reviewer’s report

Title: Evaluation of the relationship between malar projection and lower facial convexity in terms of perceived attractiveness in 3-dimensional reconstructed images

Version: 0 Date: 09 Dec 2019

Reviewer: Merve Goymen

Reviewer's report:

In this article which is written in detail and valuable in terms of method, dental students have been identified as the target audience. However, the authors did not provide information about the educational level of the dental student. It will change the student's aesthetic perception of each year in the faculty for educational purposes. Besides, recalculation should be performed by increasing the power (0.8) used in the calculation of the number of individuals included in the study. With so few dental students, it is not possible to reach the conclusions stated by the authors. To reach these general result sentences, the study should be conducted with larger sample groups, including laypersons. In addition, I have listed a few recommendations for authors to strengthen this submission;

* Photo resolutions should be improved.

* The abbreviations in Table 1 could be given in manuscript. I think there is no need for an extra table.

* In abstract section, group information could be expressed as more descriptive.

Level of interest
Please indicate how interesting you found the manuscript:

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?
4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?
6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
