Reviewer’s report

Title: Comparison of the accuracy of different impression procedures in case of multiple and angulated implants

Version: 0 Date: 30 Sep 2019

Reviewer: Anthony Markus

Reviewer's report:

Language review

Overall very good but there are some changes required. For example, line 16 in the Abstract - replace parallelly with 'in parallel'. Line 36 Detected not deteceted. There are some minor omissions of the word 'the' that, if inserted, would make it read better. Please check the text for these and any other errors. Otherwise, it seems a very good study.
