Reviewer’s report

Title: Comparison of the accuracy of different impression procedures in case of multiple and angulated implants

Version: 1 Date: 21 Jan 2020

Reviewer: Barbara de Lucas

Reviewer's report:

The authors have considered all comments and have revised the manuscript. The issue is relevant for prosthodontics, gerodontology and geriatric dentistry. The passive fit of implant-supported prostheses is one of the most important factors affecting the success of treatment. The authors present a comparison regarding the accuracy of impression procedures for different angulated implants in edentulous maxila.
