Reviewer's report

Title: Implementation of secondary fracture prevention services after hip fracture: a qualitative study using extended Normalization Process Theory

Version: 2 Date: 10 February 2015

Reviewer: Andrew Morden

Reviewer's report:

I do not think that the manuscript requires any further work doing to it and all of my comments have been addressed in the latest iteration of the manuscript.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
