Reviewer’s report:

My compliments to the authors for so thoroughly addressing the reviews. The revisions are thoughtful and comprehensive. I especially appreciated the more indepth exploration of the profiles, their relationship to implementation, as well as strategic climate in the discussion.

Interesting point that the authors posit that culture/climate not linked to VS implementation potentially because the intervention is simpler; perhaps less dependent on organizational infrastructure, teams, support, and the general context.

This paper describes rich implications and directions for future research, and I look forward to seeing this piece published.
