Title: A randomised controlled trial of performance review and facilitated feedback to increase implementation of healthy eating and physical activity-promoting policies and practices in centre-based childcare

Reviewer's report:

The manuscript is well-written and describes the study clearly. I'm not sure I would have classified the implementation strategy as audit and feedback though. To me, the strategy described sounded more like facilitation to help the daycare centers to implement the desired interventions. Regardless of what you call it, I do think there was a facilitation piece going on in addition to the A&F from how you described the activities of the implementation support staff. It may be worthwhile to indicate this in the manuscript.
