Reviewer’s report

Title: SEAS (Scientific Exercises Approach to Scoliosis): a modern and effective evidence based approach to physiotherapic specific scoliosis exercises

Version: 8 Date: 1 December 2014

Reviewer: Thomas Findley

Reviewer’s report:

major compulsory revisions
the authors did not respond to the eight compulsory points raised by one reviewer
their one page response to reviewers is inadequate
they either need to indicate how they have incorporated them or if they chose not to follow any major compulsory revisions, they need to give a clear rationale for not following them

minor revisions
closely examine the noun and verbs to ensure that singular and plural forms are used appropriately.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
