Reviewer's report

Title: Efficacy of the Osaka Medical College (OMC) brace in the treatment of adolescent idiopathic scoliosis following Scoliosis Research Society brace studies criteria

Version: 4 Date: 12 March 2015

Reviewer: Grant Wood

Reviewer's report:

I have reviewed the revised manuscript "Efficacy of the Osaka Medical College (OMC) brace" and would like to accept it without revision. The only suggestions would be to write out "thoracolumbosacral orthoses" (TLSOs) the first time it is mentioned on page one. I feel that my previous concerns were addressed and this paper Efficacy of the Osaka Medical College (OMC) brace is acceptable for publication.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
