Title: Schroth Physiotherapeutic Scoliosis-Specific Exercises for Adolescent Idiopathic Scoliosis: How Many Patients Require Treatment to Prevent One Deterioration? - Results from A Randomized Controlled Trial "SOSORT 2017 Award Winner"

Version: 1 Date: 13 Jul 2017

Reviewer: Hagit Berdishevsky

Reviewer's report:

The need for high level of evidence is crucial for the growing conservative care management of patients with scoliosis. The author of this paper made a step through with her past and present publication proving the effectiveness of the Schroth method to treat patients with scoliosis with success in preventing curve deterioration. I salute to her contribution and will always look forward for more evidence to justify our hard work.
