Reviewer’s report

Title: The role of the paravertebral muscles in adolescent idiopathic scoliosis evaluated by temporary paralysis.

Version: 1 Date: 20 Jul 2017

Reviewer: Evangelos Christodoulou

Reviewer's report:

Dear Authors,

I believe the changes you made and the answers given to the Reviews are well constructed and right to the point. Although i would prefer that only lumbar scoliotic curves were included in this study, i think that the results are promising and more research should be done at this direction.

Yours sincerely
