Reviewer’s report

Title: Quality of Life and Patient Satisfaction in Bracing Treatment of Adolescent Idiopathic Scoliosis

Version: 0 Date: 07 Apr 2018

Reviewer: M S Wong

Reviewer's report:

1) What kind of language was used in conducting the BrQ questionnaire in this study? Has the research team gone through the validation process of language translation?

2) Prospective comparison of BrQ after the commencement of brace treatment and comparison with other HRQoL instruments should be considered as different ethnic patient groups can have quite different responses to brace treatment and the corresponding adaptations.

3) How many cases with parental influence in answering the BrQ questionnaire?

4) More statistical treatments and ways of result presentation on the analysed data should be performed rather than descriptive presentation (in percentage only).

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field
