Reviewer's report

Title: Acquired Gerbode defect following endocarditis of the tricuspid valve. A case report and literature review

Version: 1 Date: 12 June 2015

Reviewer: Eduardo Rocha

Reviewer's report:

Major Revisions: We know that this complication increases mortality, and it is important to know how about morbidity and mortality. I wanted to know about mortality, renal failure, hospital permanence, bacterial resistance and recurrence. These informations are essential to improve the knowledge about this theme.

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
