Reviewer's report

Title: Lungs exposed to 1 hour warm ischemia without heparin before harvesting. Candidates to be transplanted?

Version: 2 Date: 25 July 2015

Reviewer: Karthikeyan Santhanakrishnan

Reviewer's report:

The authors have taken into account my suggestion has corrected the report accordingly, the inference is appropriate and no major revisions is required.

Minor revisions
Figure 1. macroscopic evidence of no thrombus should be mentioned or the table could be removed.

Discretionary revisions
Pulmonary flow is proportional to the PVR in EVLP and figure 2 is a similar data as of figure 3.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
