Reviewer's report

Title: Simultaneous resection of bilateral anomalous systemic supply to the basal segments of the lungs: a case report

Version: 2 Date: 18 July 2015

Reviewer: Yasuhiro Hida

Reviewer's report:

Minor Essential Revisions

The reviewer would ask the authors to add 2 pictures in figure 3. It would be informative to show the aberrant arteries 1) before they were dissected and 2) before the left aberrant artery was dived. The text and the figure legend should be changed accordingly.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable
