Reviewer’s report

Title: High dose statin prophylaxis in cardiopulmonary bypass related surgery: clinical utility. A randomised controlled trial.

Version: 0 Date: 01 Mar 2017

Reviewer: Vinicius Nina

Reviewer's report:

Dear Authors,

Congratulation for your interesting RCT about the benefits of high dose of statin to prevent SIRS after CPB.

Please address the following issues:

1- Type of statin given to the control group. Note that the molecular structures of statins are not similar and could have an effect on the mechanism of action.

2- The timepoint of the second measurement of the Troponin I level is missing (Results page 10)

3- Spelling errors: "significant differences were testing", "As practicing clinician, we advocate"

Kind regards,

Reviewer
