Reviewer’s report

Title: Concomitant aorto-right subclavian artery bypass with off-pump coronary artery bypass grafting: a case report

Version: 0 Date: 29 Jan 2017

Reviewer: Raffaele Giordano

Reviewer's report:

The authors describe the case of a 77-year old male with severe stenosis of the brachiocephalic artery and severe coronary artery disease that successfully underwent aorto-right subclavian artery bypass that was performed concomitantly with off-pump coronary artery bypass.

There are two good CT pictures that show the pre- and post-operative anatomy.

The manuscript is interesting, discreetly-written and we suggest the publication.
