Reviewer’s report

Title: Case report of an unusual combination of purulent pericarditis and false aneurysm of the ascending aorta

Version: 0 Date: 06 Jan 2018

Reviewer: Oved Cohen

Reviewer’s report:

very interesting case with a successful management of a high risk patient with enormous mortality risk.

the authors present systematically all the case details and described the actions were taken in a clear and simple description with all the imaging that assist them to get the right diagnosis and action. the discussion cover a profound literature review and the implication about this case in think this is an important case that can be learned from.
