Reviewer’s report

Title: Dual inflow without circulatory arrest for hemiarch replacement

Version: 0 Date: 02 Dec 2018

Reviewer: S Castrovinci

Reviewer's report:

I read with interest the paper by Tae Yun Kim et al from Republic of Korea. The case is interesting but I have some concerns:

-major:

In aortic arch surgery is important to not clamp the aorta. There is a risk of aortic lacerations or leave diseased aorta. There are no comments on this subject.

Abstract is poor

-minor: the English have to be improved. Figures quality is poor

Level of interest

Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English

Please indicate the quality of language in the manuscript:

Needs some language corrections before being published
Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
