Title: Isolated Right Atrial Rupture from Blunt Trauma: A Case Report with Systematic Review of a Lethal Injury

Version: 0 Date: 25 Jun 2018

Reviewer: James Douglas Aitchison

Reviewer's report:

The article is interesting and has reviewed literature over a long timeframe with reference to current presentation.

The condition is rare but not so rare that a cardiothoracic or trauma surgeon would not see it.

The significance of the lack of tamponade in this and other patients is noted and needs an increased suspicion in all those who manage chest trauma.

I would accept this article and I would be happy to see it in the journal.
