Version: 0 Date: 09 Dec 2018

Reviewer: Hasan Ekim

Reviewer's report:

You stated that patients with Marfan Syndrome or other connective tissue diseases requiring aortic surgery have not been accepted for TEVAR in your hospital. Were six patients with Marfan syndrome and retrograde type A dissection referred from other hospitals?

In methods section, in line 54-56: 'The postoperative variables, which included cardiopulmonary bypass time, the circulatory arrest time, …' should be corrected as 'The variables, which included cardiopulmonary bypass time, the circulatory arrest time, …'

Writing and grammatical errors should be corrected.
