Reviewer’s report

Title: Congenital aneurysmal right coronary artery with a fistula to the left atrium in an adult

Version: 0 Date: 22 Dec 2018

Reviewer: Satoru Domoto

Reviewer’s report:

The authors reported 'Congenital aneurysmal right coronary artery with a fistula to the left atrium in an adult'.

Because coronary artery fistula with giant coronary artery is often reported, I think there is no innovation regarding diagnosis and treatment.

I think that the electrocardiogram for proof myocardial ischemia was unnecessary, and it was better if there is something like myocardial scintigraphy to proof myocardial ischemia.
