Reviewer’s report

Title: Arterial Stiffness is a Predictor for Acute Kidney Injury following Coronary Artery Bypass Graft Surgery

Version: 0 Date: 15 Feb 2019

Reviewer: Nazmul Hosain

Reviewer’s report:

Interesting article but there are limitations as you have mentioned warrants further study.

Please consider the following:

1. Pg 5 line 6-8. We hypothesised that PWV would also predict acute kidney injury in subjects who have undergone non-valve repair elective coronary artery bypass graft (CABG) surgery. Plz consider rephrasing the following nomenclature 'non-valve repair elective coronary artery bypass graft (CABG) surgery', if possible.

2. Pg 8 line 18-20 They were included if they were aged>18 years, due to have CABG surgery For patients due to have CABG >18 years bar is obvious, not required to be mentioned.

Level of interest
Please indicate how interesting you found the manuscript:
