Reviewer’s report

Title: ASSESSMENT OF POSTOPERATIVE PAIN MANAGEMENT AND COMPARISON OF EFFECTIVENESS OF PAIN RELIEF TREATMENT INVOLVING PARAVERTEBRAL BLOCK AND THORACIC EPIDURAL ANALGESIA IN PATIENTS UNDERGOING POSTEROLATERAL THORACOTOMY

Version: 0 Date: 31 Oct 2018

Reviewer: Paola Ciriaco

Reviewer's report:

Dear Authors, this is a well written and well conducted study about comparison between the two analgesia techniques. Unfortunately it does not anything new to the literature where several papers about the subject including a much greater number of patients are reported.
