Reviewer’s report

Title: Hemoptysis Secondary to Rupture of Infected Aortic Aneurysm– A Case Report

Version: 0 Date: 02 Jun 2019

Reviewer: Eduardo Rocha

Reviewer's report:

Pseudoaneurysms have a lot to do with traumatic lesions of the intima. Is there a report of trauma in this case? What was the initial focus of the infection? What was the result of the biopsy? The patient had some aortic disease that predisposed the pseudoaneurysm?
