Reviewer’s report

Title: Resection of a huge mediastinal well-differentiated liposarcoma involving left thoracic cavity

Version: 0 Date: 02 Jun 2019

Reviewer: Beatrice Aramini

Reviewer's report:

Dear Authors, your case report is interesting and quite well written. However, I suggest

1. a better revision of the English language, maybe an Editing to American Journal Experts could help you to improve the language.

2. I would add more details about the patient especially regarding the postoperative course. We have no data related to that.

3. I would also add CT or chest x ray after 8 months from surgery, as follow up.

4. if you have done FISH test, it could be nice to show a picture related to that.

Thanks for your attention
