Reviewer’s report

Title: Left ventricular dysfunction postsurgical patent ductus arteriosus ligation in children: predictor factors analysis

Version: 0 Date: 18 Jun 2019

Reviewer: Lorenzo Grazioli

Reviewer's report:

Thanks for your paper.

It is interesting to forecast the outcome of a patient before a procedure.

Some criticism:

- It is not clear the unit of measure of FS and LVED changes in the figures

- Is not clear which is the group of patients who received anti failure drugs post op.

Is good to have a statistical analysis on your case series but I am not sure it is power enough

Level of interest

Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English

Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests

Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?
4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.
