Reviewer’s report

Title: Comparison of modified MAZE with minimally invasive monopolar ablation and traditional bipolar radiofrequency ablation in the treatment of atrial fibrillation

Version: 1 Date: 30 Jun 2019

Reviewer: Clauden Louis

Reviewer's report:

This is a great manuscript comparing two approaches to treating atrial fibrillation. I believe this study was well analyzed and discussed. Were there one or more surgeons? How did patients select for either procedure? Did surgeons perform both open and minimally invasive? Were there any discussions as to bilateral minimally invasive maze procedure?
