Title: Concurrence of primary pulmonary malignant melanoma with invasive pulmonary adenocarcinoma: a case report

Version: 0 Date: 09 Jan 2020

Reviewer: Rajiv Sharma

Reviewer's report:

1. It is an interesting article from the rarity point of view. The malignant melanoma in lungs is rare indeed.
2. However it is not the first time it has been found. For example the reference below outlines it.

   There are other references too in the literature too.
3. From the pathological point of view it is well illustrated.
4. The outline of treatment is not clear and cannot be used as a reference for any cases in future.
