Reviewer’s report

Title: Concurrence of primary pulmonary malignant melanoma with invasive pulmonary adenocarcinoma: a case report

Version: 0 Date: 17 Jan 2020

Reviewer: Gordana Taleska

Reviewer's report:

This is an intriguing report on concurrence of accidentally found primary pulmonary malignant melanoma with invasive pulmonary adenocarcinoma in a young asymptomatic woman. It is interesting for publication since it presents for the first time in the literature (as stated by the authors) a co-occurrence of two primary pulmonary malignancies, one of which already being extremely rare in clinical practice.

However, I do miss the more extensive literature review mentioned in the article title. Authors are kindly asked to revise and re-write this section accordingly. Emphasis should be made predominantly on the treatment (apart from surgery) of this combination of two primary malignancies. The manuscript also needs some language editing before eventual publication.
