Title: National Survey of Enhanced Recovery After Thoracic Surgery Practice in the United Kingdom and Ireland

Version: 0 Date: 26 Feb 2020

Reviewer: Paola Ciriaco

Reviewer's report:

I congratulate the Authors for the choice to report the UK and Ireland experience on ERAS. Although interesting, this paper does not present advantages and disadvantages of applying the ERAS protocol. The importance or not of the application of ERAS should be translated into statistical terms. I think that a complete rework should be done to turn the paper into a letter.
