Reviewer's report:

Dear Authors,

congratulations for putting together data of 132 patients with PFO demonstrating the feasibility of occluding them at the OR by a cardiovascular surgeon using a less invasive method of guidance.

In order to improve the quality and clarity of your manuscript, please address the folllowing:

1- Revise thoroughly the English editing, both grammar and spelling
2- Clarify how you have managed 4 patients with moderate and large RLS demonstrated by the c-TTE at 12 months of follow-up.

Kind regards,

The Reviewer
