Reviewer's report

Title: Bleeding complications after cardiac surgery, before anticoagulation start and then with argatroban or heparin in the early postoperative setting

Version: 0 Date: 04 Nov 2019

Reviewer: Mohammed Nasser Aldahmashi

Reviewer's report:

This retrospective study is too small to analyze the subgroups in more detail and had several biases as the author has mentioned. The results do not clearly show evidence for higher bleeding risk assigned to anti-coagulation, and couldn't conclude beneficial clinical value.
