Reviewer's report

Title: A surgical case of mediastinal hematoma caused by a minor traffic injury

Version: 0 Date: 24 Nov 2019

Reviewer: Akimasa Morisaki

Reviewer's report:

I congratulate that the authors successfully treated a patient who had mediastinal hematoma caused by thyroid lobe injury. However, I think that this case report is required minor revisions as follows.

1. The legend of operative figures is not enough to understand the detail of operative field. Please describe the more detail of operative figures, including the explanations of the anatomy.

2. Thoracoscopic surgery is also a useful operative procedure to removal of mediastinal hematoma. Did the authors consider the thoracoscopic surgery to remove the mediastinal hematoma?
