Reviewer’s report

Title: Unified Cox model based multifactor dimensionality reduction method for gene-gene interaction analysis of the survival phenotype

Version: 1 Date: 12 Nov 2018

Reviewer: Ruowang Li

Reviewer's report:

I appreciate the authors' hard work to address the comments. The only additional comment I have is that the authors' responses should be incorporated in the manuscript as well.

1. The authors should mention that the number of permutations did not affect the test statistics W.

2. Please add a reference to the supplemental table in the method, for example, yielding 70 epistasis models with various penetrance functions, as described in [11] (supplemental table 1)

Level of interest
Please indicate how interesting you found the manuscript:

An article of importance in its field

Quality of written English
Please indicate the quality of language in the manuscript:

Needs some language corrections before being published

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?
5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests.
