Reviewer's report

Title: Comparing 3D foot scanning with conventional measurement methods

Version: 2 Date: 1 August 2014

Reviewer: Sophie De Mits

Reviewer's report:

The questions were answered and suggested changes were made in the manuscript.
There are still some language issues to be corrected (esp. 'a' and 'the' are missing).

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
