Reviewer’s report

Title: Reliability of isometric subtalar pronator and supinator strength testing

Version: 2 Date: 21 October 2014

Reviewer: Adam R Bird

Reviewer’s report:

Response on hold until authors can provide response to each of my comments about the article (ie. a response in the cover letter).

Having such a response will make this paper substantially easier to review.

Thanks

Level of interest: An article of importance in its field

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
