Reviewer's report

Title: Diagnostic accuracy of resting systolic toe pressure for diagnosis of peripheral arterial disease in people with and without diabetes: a cross sectional case control study

Version: 1 Date: 13 Nov 2017

Reviewer: Shan Bergin

Reviewer's report:

I feel this paper now provides a more balanced arguement based on study findings - thank you. Please correct the grammatical error in the Abstract conclusion - "Our findings indicate that TP are a useful to assist...." sentence doesn't make sense.

The Abstract still states that TP can be used as a standalone assessment for PAD?? The remainder of the paper now states it is a useful adjunct and shouldn't be used as a standalone test? Please amend the Abstract statement.

Level of interest
Please indicate how interesting you found the manuscript:

An article whose findings are important to those with closely related research interests

Quality of written English
Please indicate the quality of language in the manuscript:
