Title: Evaluation of a simple tool to assess the results of Ponseti treatment for use by clubfoot therapists: a diagnostic accuracy study

Version: 1 Date: 08 Feb 2019

Reviewer: Angela Margaret Evans

Reviewer's report:

Thank you for making these amendments and clarifications.

I was most interested to see the additional files this time too, especially the effects of 'any' FAB vs none, both physically and re satisfaction.

I look forward to reading the published version in due course, and thank the authors for their contribution to this most important topic.

Well done!
