Reviewer’s report

Title: Efficacy of heel lifts versus calf muscle eccentric exercise for mid-portion Achilles tendinopathy (the HEALTHY trial): study protocol for a randomised trial

Version: 0 Date: 13 Jan 2019

Reviewer: Matt Carroll

Reviewer's report:

The protocol investigates an area where evidence is lacking. As this protocol has been through previous review processes (funding, clinical trials registry and ethics I have no comments to make on the design.

I have only two comments.

1. Relating to the use of UTC. Page 9 line 207: Will UTC be used to echotype the tendon in the initial diagnosis of tendinopathy?

2. Is there a data monitoring committee? (SPIRIT item 21a)

Declaration of competing interests
Please complete a declaration of competing interests, considering the following questions:

1. Have you in the past five years received reimbursements, fees, funding, or salary from an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?

2. Do you hold any stocks or shares in an organisation that may in any way gain or lose financially from the publication of this manuscript, either now or in the future?
3. Do you hold or are you currently applying for any patents relating to the content of the manuscript?

4. Have you received reimbursements, fees, funding, or salary from an organization that holds or has applied for patents relating to the content of the manuscript?

5. Do you have any other financial competing interests?

6. Do you have any non-financial competing interests in relation to this paper?

If you can answer no to all of the above, write 'I declare that I have no competing interests' below. If your reply is yes to any, please give details below.

I declare that I have no competing interests
