Reviewer’s report

Title: Gender differences in attitudes and attributes of people using therapeutic shoes for diabetic foot complications

Version: 0 Date: 18 Feb 2019

Reviewer’s report:

Thank you for this manuscript which I believe will be of interest to readers of this journal.

The only comment I wish to make is that your background information, particularly Line 5 of the Abstract, could be misinterpreted to suggest evidence for therapeutic footwear for both primary and secondary DFU prevention.

I believe a statement addressing the lack of evidence for primary DFU prevention would be helpful.
