Title: The footwear experiences of people with gout: a qualitative study

Version: 1 Date: 05 Jun 2019

Reviewer: Kristy Robson

Reviewer's report:

Thank you for providing your responses to the previously identified areas of concern. The responses you have provided particularly around clarifying the methodology have greatly improved overall strength of the article.

I believe this would be further strengthened if there were reference/s to support the specific methodological approach taken within the data analysis section so that it is clear that it is aligned to a qualitative description approach.
