Title: 5 Year Mortality and Direct Costs of Care for People with Diabetic Foot Complications are Comparable to Cancer

Version: 0 Date: 03 Mar 2020

Reviewer: Benjamin Bullen

Reviewer's report:

Thank you very much for this timely update comparing five-year mortality rates and health economics associated with diabetes foot disease and cancer. The authors have clearly summarised relevant research published since their 2007 paper and offer pragmatic suggestions for reducing the significant burden associated with recurrent foot ulceration.
