Title: Three-dimensional foot shape analysis in children: a pilot analysis using three-dimensional shape descriptors

Version: 0 Date: 19 Nov 2019

Reviewer: Rolf Scharfbillig

Reviewer's report:

Thank you for the opportunity to review this article. The use of scanning technology could provide some exciting insight into paediatric development when used on an appropriate sample and this study gives some insight into processes and expectations for other researchers and for this study team. The article was well written and achieved what it set out to do in a clear, easily understood manner.

I will include my comments below via In reference.
