Reviewer’s report

Title: Patient experiences living with pancreatic cancer risk

Version: 2 Date: 20 April 2015

Reviewer: Carmen Radecki Breitkopf

Reviewer’s report:

This re-submission is highly responsive to the reviewers' comments. All corrections/additions to the manuscript add value, detail, and specifically address a reviewer concern.

No Major Compulsory Revisions remain, in this reviewer's opinion.

There are still a couple of minor revisions that copy-editing missed, for example, Page 5, 4th line from top.

Page 12, last sentence first paragraph.

I offer one Discretionary Revision based on the author's response to Reviewer 1, comment 2: Qualifications of the interviewer: suggest adding “formally” to reflect doctoral training in qualitative methods, to read: Data were collected… who is formally trained and experienced in qualitative methods.” Often, individuals who have taken a one-day course in interviewing or focus group moderation consider themselves “trained.” The field needs to demand and reflect the rigor it deserves!

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests: I declare that I have no competing interests
