Reviewer’s report

Title: Late onset asymptomatic Pancreatic Neuroendocrine tumor - A case report on the phenotypic expansion for MEN1

Version: 1 Date: 23 May 2017

Reviewer: Gabriela Moeslein

Reviewer's report:

The authors present a late onset and less penetrant case of MEN1 Syndrome. Overall, this has been well described in large cohorts previously and although interesting in the single patient management and as a personal and institutional learning process, this does not contribute to what is known about the Syndrome.

Level of interest
